About us

Shanti Devi Mittal Foundation: Skets Hope Centre

The Shanti Devi Mittal Foundation, established in 2017 by Sh. Suresh Mittal in memory of his mother Smt. Shanti Devi Mittal, is committed to advancing education, skill development, and public welfare. As the Settlor of the Trust, Sh. Suresh Mittal provides strategic guidance and continuous support to the Foundation's initiatives.

The Foundation is a registered charitable trust, approved by the Income Tax Department, FCRA (Ministry of Home Affairs), DARPAN, Delhi Shops & Establishment Act, EPF, and ESI, reflecting strong governance and transparency. It operates a fully equipped centre providing free vocational training and educational support, with a special focus on empowering underprivileged women and children.

In 2019, the Skets Hope Centre was established with the guidance of Smt. Nimisha Bansal, Sh. Neeraj Bansal, and Sh. Shamit Gupta.

A 100% charitable institution, the Centre aims to remove financial barriers to education and empower children and adults with self-sustaining skills. Spread across 5,000 sq. ft., it can accommodate over 500 students and is Social Stock Exchange listed and FCRA-approved, enabling global support while driving meaningful social Change.

What we do

Computer Education

At our NGO, we empower adults and teenagers through job-oriented computer education designed to enhance employability and career readiness. Our programmes focus on building practical digital skills relevant to today's workplace and evolving industry requirements.

Recognising the importance of digital literacy across all sectors, we bridge the digital divide for underprivileged communities by providing free, high-quality computer training with modern infrastructure and awareness support. To ensure effective learning, we maintain a 1:1 computer-to-student ratio and a 15:1 student-teacher ratio, running four flexible batches daily.

Through this initiative, we promote digital inclusion, self-reliance, and sustainable livelihoods, enabling learners to build confident and independent futures.

By equipping individuals with essential digital skills, we enhance their access to employment opportunities and economic stability.

Our efforts aim to break cycles of disadvantage and empower communities through education, skills, and long-term social upliftment.

Enabling Financial Independence

Muskan's Journey: From Learning to Earning

Muskan began her journey with a simple goal to learn basic computer skills and gain confidence in using technology. What started as curiosity soon turned into determination. As she mastered the fundamentals, Muskan discovered the true power of education and decided to take the next step in her learning journey.

With renewed confidence, she enrolled in computer training, where she is now developing essential professional skills such as MS Word, Excel, and Power Point, along with an understanding of real-world software applications. Each new lesson is helping her better understand how technology works in practical, career-oriented environments.

Today, Muskan feels truly empowered. Education has given her the confidence to dream bigger, the skills to become independent, and the ability to shape her own future. She now envisions a life where she can support her family financially, contribute meaningfully to their well-being, and help create a more secure and hopeful future for them.

Muskan's story is a powerful reminder that when a woman gains skills, she gains independence and when she gains independence, she uplifts her entire family.

VARUN'S STORY: A STEP TOWARD FINANCIAL FREEDOM

Varun came to know about our NGO through a friend at a time when his life was marked by serious financial difficulties. The pressure to support his family and the uncertainty of his future made continuing education feel like a distant dream. Many moments tested his resolve, yet Varun refused to give up. Guided by hope and a strong belief that learning could transform his life, he made the courageous decision to join our NGO.

Despite limited resources and ongoing personal struggles, Varun showed remarkable commitment. He attended training sessions regularly, embraced every learning opportunity, and worked diligently to build basic computer skills, including MS Word, Basic Excel, and Power Point. Through hands-on practice, he learned how to create documents, manage data, prepare presentations, and apply these skills in real-world, professional settings.

With continuous guidance and encouragement, his confidence grew steadily. What once seemed overwhelming slowly became achievable, and Varun began to understand the true meaning of self-reliance and sustainable livelihood.

Today, Varun is confidently moving toward financial freedom. He is now able to support his family with dignity, ease their financial burden, and contribute to a more secure and hopeful future. Beyond financial stability, Varun has gained self-belief, purpose, and the courage to dream bigger.

Varun's journey stands as a powerful reminder that when determination is supported with the right skills, guidance, and opportunities, lives are transformed not just for individuals, but for entire families.

Library

Skets Hope Centre is dedicated to promoting education and literacy through the establishment of a free library and self-study centre, with a special focus on serving underprivileged communities. These initiatives create a safe and supportive learning environment that encourages both children and adults to cultivate a strong and lifelong habit of learning.

The Centre ensures free and equitable access to knowledge for individuals who lack adequate resources, including students, job seekers, and lifelong learners. To further enhance the learning experience, Skets Hope Centre provides essential facilities such as free internet access, clean drinking water, and basic study materials, enabling learners to focus on their academic and professional development without barriers.

By fostering a culture of knowledge-sharing and continuous learning, Skets Hope Centre plays a significant role in social development and community empowerment, helping individuals gain confidence, skills, and opportunities for a brighter future.

Through its free library initiative, the Centre has successfully engaged approximately 40 individuals, offering them access to relevant educational resources and creating a collaborative space that supports learning, growth, and information exchange.

Coaching classes

Skets Hope Centre offers structured and inclusive academic coaching for students from Grades 3rd to 10th, with a strong focus on supporting learners from underprivileged and marginalized communities. The program is designed to strengthen foundational learning, improve academic performance, and ensure equal access to quality education.

Through personalized teaching and mentoring, students receive focused support in core subjects such as Mathematics, Science, Languages, and Social Studies, helping them build clarity, confidence, and consistency in learning. This tailored approach enables students to overcome learning gaps and achieve better academic outcomes.

The Centre is committed to educational equity, ensuring that students from low-income backgrounds receive the same level of academic guidance, learning resources, and encouragement as their more privileged peers, thereby creating a fair and supportive learning environment.

Beyond academics, the program emphasizes the development of critical thinking, problem-solving, discipline, and time management skills, which are essential for long-term success. Students are also guided in preparing for board examinations, competitive assessments, higher education, and future career opportunities.

Turning Challenges into Champions: An Academic Transformation Story

Accounting classes

We provide Accounting Training to help students, youth, and working individuals gain practical financial skills and build a secure career. Our program is designed for beginners as well as for those who want to strengthen their existing knowledge. We cover bookkeeping, Tally, GST, preparation of financial statements, budgeting, and basic to advanced accounting in a simple and easy-to-learn way.

Our focus is on hands-on learning. Students receive practical training on real accounting software, office-style records, and case studies so they can confidently handle accounting work in organizations and businesses. Our experienced trainers give personal attention to each learner to ensure strong understanding and skill development.

After completing the course, learners are prepared for jobs in accounting, finance, auditing, and taxation, or for managing their own business accounts independently. We also help students develop professional discipline and workplace readiness.

All training is conducted in classroom mode at our centre, ensuring direct interaction, better guidance, and a supportive learning environment.

OUR IMPACT IN ACTION: FROM STUDENT TO TEACHER

Meenu joined our NGO as a student in the computer classes with a simple but powerful goal to learn and build a better future for herself and her family. When she first walked into the classroom, she had very little exposure to computers, but she carried a strong desire to grow, work, and become independent.

With regular training, practice, and guidance from our teachers, Meenu gradually learned essential computer skills such as typing, data entry, basic software applications, internet use, and digital communication. Every day, she challenged herself to improve. What began as hesitation soon turned into confidence, and Meenu started excelling in her classes.

As her skills improved, so did her sense of responsibility. She began helping fellow students who were struggling, explaining lessons, and guiding them during practice sessions. Her dedication, patience, and natural ability to teach did not go unnoticed. Seeing her potential, our NGO encouraged Meenu to take on more responsibility first as a classroom assistant, and soon after, as a teacher.

Today, Meenu proudly works as a Computer Teacher and Mentor at our NGO. She not only teaches technical skills but also motivates students to believe in themselves, just as she once learned to do. She understands their challenges because she has walked the same path. Her classroom is filled with encouragement, discipline, and hope.

Meenu's journey from a student to a teacher is a powerful example of how education can change lives. What started as a learning opportunity has now become a platform for her to empower others. By guiding new students toward digital skills and confidence, Meenu is helping create a stronger, more independent generation proving that when one woman rises, she lifts many others with her.

Beautician Course

We are deeply committed to holistic empowerment through our thoughtfully designed Beautician Courses. Our aim is to uplift underprivileged and economically challenged individuals, especially women, by equipping them with practical and industry-relevant skills. These programs are structured to promote financial independence, self-reliance, confidence, and dignity, enabling participants to build sustainable livelihoods and pursue meaningful employment or entrepreneurial opportunities.

Beyond learning the art of beauty and wellness, participants experience a transformational journey that builds confidence, enhances self-esteem, and opens pathways to sustainable livelihoods. The program offers comprehensive, hands-on training in key areas such as skincare, hairstyling, makeup application, and basic salon management. This practical approach ensures participants are well-prepared for meaningful employment and successful careers in the beauty industry. In addition to technical skills, the Centre provides basic business and entrepreneurship training, encouraging participants to start their own beauty-related ventures and become job creators within their communities.

By focusing on women from marginalized backgrounds, we empower them with the skills, confidence, and opportunities needed to achieve financial autonomy, overcome poverty, and build a brighter, more secure future.

Learning Beautification, Gaining Confidence, Creating Careers

Rajani's Story: Shaping a Better Future Through Skills

Rajani enrolled in the Beautician course with a strong determination to learn, grow, and achieve independence. Through dedicated training and hands-on practice, she gained a solid foundation in professional skills such as manicure, pedicure, waxing, makeup, and other essential beautician services. Her confidence steadily increased as she mastered each new technique.

Today, Rajani is successfully working as a beautician, serving clients with professionalism, care, and attention to detail. Alongside her job, she continues to enhance her expertise by learning advanced beauty techniques, aiming to refine her skills and offer more specialized services.

With her growing knowledge and experience, Rajani feels empowered and hopeful about her future. She is now able to contribute to her family's financial well-being while moving closer to her dream of possibly opening her own parlour someday. Beyond acquiring skills, her journey has instilled in her self-belief, independence, and the determination to succeed.

Rajani's story is a testament to how skill-based education can transform lives, empowering women to build careers, achieve financial stability, and create opportunities for a brighter, dignified future.

Empowering individuals through skills creates lasting change

A New Chapter: Jayanti's Path to Independence

Jayanti came to know about our NGO through her mother, who believed that the right guidance and opportunity could change her daughter's life. Motivated by the desire to become independent and support her family, Jayanti joined our Beautician course with enthusiasm and determination.

From the very beginning, she found more than just training she discovered a safe and supportive environment, complete with all the learning materials and constant encouragement she needed. This nurturing space gave Jayanti the confidence to ask questions, practice diligently, and believe in her abilities.

Step by step, Jayanti developed professional skills in manicure, pedicure, waxing, makeup, and other essential beautician services. With each new skill, her confidence grew, and the path to success became clearer. What once felt uncertain transformed into hope, ambition, and direction.

Today, Jayanti is working as a professional beautician, serving clients with care and expertise. She is proud to contribute to her family's well-being and is excited to continue learning advanced techniques to further her career. Jayanti's journey reflects how skill-based education empowers women to build independence, confidence, and a brighter future.

Yoga and Karate Training

We are committed to empowering underprivileged communities through our Yoga and Self-Defence Training Programs, with a strong focus on women and youth. These initiatives are designed to strengthen physical health, enhance mental well-being, and promote personal safety, contributing to holistic development.

Through regular yoga sessions, participants improve flexibility, posture, balance, and stress management, supporting long-term physical, mental, and emotional well-being. Complementing this, self-defence training builds confidence, resilience, and situational awareness, equipping individuals with practical skills to protect themselves and respond effectively in challenging circumstances.

Together, these programs foster independence, self-belief, and overall well-being, enabling participants to lead healthier, safer, and more confident lives. Overall, our NGO Centre's Yoga and Self-Defence Training Programs have empowered numerous individuals by strengthening their physical and mental resilience and equipping them with essential life skills to overcome challenges related to poverty, unemployment, and illiteracy.

Stitching and Tailoring Classes

We are committed to empowering underprivileged communities into meaningful action through its Tailoring and Stitching Training Programs. These initiatives play a crucial role in equipping individuals particularly women with employable and income-generating skills, enabling financial independence and long-term self-reliance.

Carefully designed to address the needs of underserved communities, the programs promote entrepreneurship, economic participation, and sustainable livelihood development. Participants receive hands-on training in both basic and advanced tailoring and stitching techniques, preparing them for employment opportunities as well as self-owned micro-enterprises.

Beyond technical skills, the programs focus on building confidence and entrepreneurial mindset, encouraging participants to create and manage their own income-generating ventures. The training also integrates traditional embroidery and tailoring practices, helping preserve local craftsmanship while enhancing market relevance.

Overall, we have empowered countless individuals through our Stitching and Tailoring Programs by equipping them with practical, market-aligned skills. These initiatives support pathways out of poverty, reduce unemployment, and address illiteracy through hands-on, skill-based learning. By enabling participants to generate sustainable livelihood opportunities, the programs foster long-term economic independence, confidence, and self-reliance.

From Training to Self-Employment: Stitching & Tailoring at Our NGO

Rakhi's Story: Stitching Hope into a Better Future

Rakhi joined our Stitching and Tailoring program with the dream of becoming independent and supporting her family. Through dedicated training, she learned to stitch a wide range of garments, including lehenga, shirts, pants, and kurtas. With practice and guidance, her confidence and skills grew stronger each day.

Today, Rakhi is ready to start her own tailoring business and build a stable future for herself and her family. She now believes in her own abilities and looks forward to turning her talent into a steady source of income. Her journey shows how skill-based education can give women not just an income, but dignity, confidence, and hope for a better tomorrow.

From Thread to Triumph: Rimghim's Journey to Independence

Rimghim heard about our NGO through a relative at a time when she was searching for a way to build a better future. She joined the Stitching and Tailoring program with curiosity and hope, eager to learn a skill that could give her independence.

Through regular training and hands-on practice, Rimghim learned to stitch kurtas, shirts, pants, and lehengas with care and precision. With every new garment she completed, her confidence grew. The supportive environment at the NGO helped her believe in herself and her abilities.

Today, Rimghim is preparing to start her own tailoring work and dreams of earning through her skills. She wants to support her family and live with dignity and self-respect. Her journey shows how skill-based education can transform lives by turning effort into opportunity and hope into reality.
